Description of necessary first-aid measures

Inhalation: If inhaled, remove to fresh air. If breathing is difficult, give oxygen. If unconscious, evaluate the need for artificial respiration. Get immediate medical attention.

Skin Contact: Flush skin with plenty of water. Remove contaminated clothing. Obtain medical attention if irritation develops or persists.

Eye contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes or until all material has been removed. Obtain medical attention.

Ingestion: If swallowed, get medical attention immediately. Only induce vomiting if directed by a physician. Never give anything by mouth to an unconscious person.

Personal Protection for First-aid Responders: As in any fire, wear self-contained positive-pressure breathing apparatus, (MSHA/NIOSH approved or equivalent) and full protective gear.

Specific hazards arising from the chemical: Can burn in fire forming carbon dioxide and some carbon monoxide.

Special protective equipment and precautions for firefighters

Special fire fighting procedures:	Containers can build up pressure if exposed to heat (fire). Cool with water spray. As in any fire, wear self-contained, pressure-demand breathing apparatus (MSHA-NIOSH approved or equivalent) and full protective gear.
Special protective equipment for fire-fighters:	As in any fire, wear self-contained positive-pressure breathing apparatus, (MSHA/NIOSH approved or equivalent) and full protective gear.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures:	Use personal protective equipment. Ensure adequate ventilation.
Accidental release measures:	Remove sources of ignition and ventilate area.
Methods and material for containment and cleaning up:	Ventilate area. Absorb spill with inert material and place in a chemical waste container.
Environmental Precautions:	Obey relevant local, state, provincial and federal laws and regulations. Do not contaminate any lakes, streams, ponds, groundwater or soil.

7. Handling and storage

Handling

Technical measures (e.g. Local and general ventilation):	Provide adequate ventilation.
Safe handling advice:	Avoid breathing aerosol. This may cause respiratory complications. Handle in accordance with good industrial hygiene and safety practice. Do not breathe in vapours or aerosols. If workplace exposure limits are exceeded and/or larger amounts are released (leakage, spilling, dust) the indicated respiratory protection should be used. Wear suitable protective equipment. Avoid contact with eyes, skin, and clothing. If there is the possibility of skin/eye contact, the indicated hand/eye/body protection should be used. Please refer to our web site: www.protectosil.com Spray applications in building protection: Please observe our instructions for use in our product information/technical data sheets; available at www.protectosil.com Benefit from our "Technical Training Program" If a product contains this active substance and is resold again, the distributor shall have to assure that this information will be communicated to the subsequent users. Avoid contact with eyes, skin and clothing. Use with adequate ventilation. Avoid breathing vapor or mist. Follow all SDS/label precautions even after container is emptied because it may retain product residues. Wash thoroughly after handling.
Contact avoidance measures:	No data available.
Hygiene measures:	Avoid contact with skin, eyes and clothing. Do not inhale vapors or aerosols. Do not eat, drink, or smoke when using the product. Remove contaminated or saturated clothing.

Storage

Safe storage conditions:	Keep tightly sealed in original packing. Protect from frost. Keep containers tightly closed in a dry, cool place. Take precautionary measures against static charges, keep away from sources of ignition.
Safe packaging materials:	No data available.
